“*I have been doing this book for ten days, and my life is on fire! I am seeing things I have never seen before. I am in action, moving forward.*”

“*What I see within these pages are ticklers, teasers, and other tools to nudge you in the direction of your own divinity. There can't be a better calling for a book. There can't be a higher desire for a person.*”

— Dr. Joe Vitale, author of the #1 bestseller “The Attractor Factor”

FROM THE POWER OF OUR WAY

“*It is time for us to come together and collectively choose a new consciousness. It is time for us to co-create a new existence, a new experience, and write a new story of hope for the generations to come. It is through our choices and experiences of today that the history of tomorrow is created. By choosing to set aside a few moments each day for our own individual healing work, we can create a Universal Energy that will mend a wounded world. It is time.*”

The Power of Our Way:

A Path to a Collective Consciousness

“You can watch TV, listen to the radio, read the papers, or stroll the Internet, all in search of “information” to make you feel better. Or you can open this book, start where you are, and begin the process of elevating your mind to be one with the divine.”

Dr. Joe Vitale, Author of #1 Best Seller, *The Attractor Factor*

Number 1 Best selling author, Dr. Joe Vitale, and local author, Anita Pathik Law have a lot in common. Both are international corporate consultants who have written spiritually based books designed to help people achieve their business and personal goals, and both are strong believers in the power of Internet marketing. Dr. Vitale, whose number one best seller *The Attractor Factor*, knocked Harry Potter out of first place on Amazon.com sales charts, was so impressed with Anita's book, he decided to write the foreword.

Anita, like Dr. Vitale, wanted to offer people more than just a bottom-line approach to life.

A business owner, certified coach, lyricist, author, and daughter of a Hindu father, (who on an historical note was named by Mahatma Gandhi) and a Christian mother, Anita drew on her diverse heritage, professional, and life experiences, to write a book filled with daily readings, meditations and thought-invoking questions that lead readers through a 31-day process that guides them to explore their basic values, passions, and purpose in a way they may not have done before. Because readers are literally traveling through the 31-day journey together, the collective energy created through common intention and focus is seen as having a positive impact on the families and communities touched by the readers. Anita's talent as a writer can also be experienced in numerous business articles and the poetic words of her inspiring meditations and song lyrics.

ABOUT THE POWER OF OUR WAY and ITS COMMUNITY:

The Power of Our Way—A Path to a Collective Consciousness is a book of short daily readings and exercises that nurture and challenge readers to think deeply and expansively about their place and role in their families, communities and the world. *The Power of Our Way* is a catalyst for deep transformation on both an individual and collective level. With the release of the book and www.thepowerofmywaymovie.com on January 11, 2006, more than 100,000 people had viewed the movie in the first 8 weeks. Attracted to the purpose of **“Raising Consciousness and Building Bridges of Higher Understanding”** within self, in relationships, in business and leadership, and across cultures and religions, membership to the Power of Our Way Community and its newsletter continues to grow internationally, with members from all 7 continents. The community website provides free resources to its members and offers coaching, education, music, articles, books, and inspirational programs and retreats. The host of “Conscious Dialogues,” Anita attracts thought leaders from varied disciplines to participate in many of the Power of Our Way offerings. One CEO healed his relationship with his divorced wife and his business, and he says it was totally due to the book. Another found the inner courage to leave a secure corporate job which she had disliked for years and live her dream as an independent consultant. **“Feedback from early readers of the book, most of whom were business clients, was gratifying,”** says Anita. “They experienced improved relationships, were connecting with their true purpose and passion, therefore were making significant changes in their lives. In the business world this equates to a more purpose-driven workforce, the leveraging of talent, and a higher sense of commitment to how people contribute to the lives of others through their work.”

One reader recently wrote, *“I am on Day 4 of Anita's “The Power of Our Way.” Already, in four days I have gotten more from this than a year of self discipline and commitment completing “A Course in Miracles”.* I am “blown away!” Anita has really stumbled onto something here. I truly believe that Anita Pathik Law is this generation's emerging “star” author and that her and Brent Law's work together will give the Human Potential Movement its biggest boost it's ever experienced.”

"So many of my clients were achieving great success, yet were fundamentally unhappy," shares Anita. "The common thread was a disconnection from who they were authentically. Lacking this connection, their souls were not being fed and I saw a deep yearning to create more of a spiritual connection in their lives, relationships, and work. *The Power of Our Way* helps people discover and re-awaken their passions and divine sense of purpose. When put into action, passion and purpose can be expressed in ways that contribute to the good of the collective."

"The daily readings are inspirational — really helped me see the world through different eyes, and the daily questions challenged me to keep seeing the world through those eyes all day long."

THE Power OF Our Way

A PATH TO A COLLECTIVE CONSCIOUSNESS

by Anita Pathik Law

Foreword by Dr. Joe Vitale, Author of *The Attractor Factor*

"This book is not for everyone," says Law. "On average, about 135 thousand people a day plug in the keyword "God" when searching the internet, yet 2.3 million search on "Britney Spears." Over 4.7 million search for "porn" each day, while slightly less than 28 thousand people key in "spirituality." People who Google "higher calling"? A whopping 106 people a day globally. **This book is for the people who are searching to connect with their higher power, higher calling, and spirituality.**" And based on the readers' feedback, they are finding it in *The Power of Our Way.*"
