

Testimonials for Rev. Anita (Ani) Pathik Law, CFCC, CHt., Speaker, Healer, Teacher, Lyricist, Author

"I had experienced Anita's amazing energy and ability to let Spirit flow through her during *The Power of Our Way Medicine Wheel* healing circle at *The Gathering* (church) in Cocoa and I felt guided to have a personal session with her. I had no idea why. I was amazed at how intuitive she was and she gave me a message that I hadn't totally accepted until then. It had to do with who I am as a healer, and she had been told nothing about that part of me. Interestingly enough, people all over the place are now giving me the same message!

She also took me deep within, where I made some huge shifts. As I continue my spiritual growth, it is amazing to watch these shifts happen in my daily life, and I am becoming more comfortable with fulfilling my purpose(s) on this earth! Thank you, Anita, for helping me take another step!"

Love, Peace & Bliss, Julie Hall, Musician, Singer, Songwriter, Cocoa, Florida

"As you know, I've always been so inspired by your messages and workshops when you've guest ministered for us at The Village Gathering. And, working one-on-one with you is remarkable! Your deep theta work was amazing! I disappeared completely into that Oneness with God and came out feeling whole, refreshed, energized and filled with a deeper love for myself and others. Thank you for helping me re-center and focus on the compassion for myself that I'd misplaced. You helped me reframe my thoughts in a way that gave me a sweeter sense of peace during my healing process.

I love our Oneness in such a big way! What's unique and fabulous is the way you combine coaching and ministering with soul journeying and energy to help people go deeper. You bring incredible spirit and compassion to your work and do so on such a deep intuitive level!

I'm glad to have you as the clean-up batter on my spiritual softball team!

Love, Reverend Paula Langguth Ryan

"I've participated in several of Anita's retreats and classes, each helping me to take huge leaps in faith and healing, and into a place of knowing that it is time to make a bigger investment in me. I have learned that I am valuable, and loved without condition. If you are ready (or scared) to move forward, the guidance and coaching provided by Ani will exponentially accelerate clarity, healing and growth. I know that I am not the only woman that has felt like she is standing at the edge of a cliff, deciding it is either time to spread her wings and fly to a higher source and truth, or fall into a deep abyss of regret and sorrow for not living her "best life." There is hope and grace waiting for you.

Ani, Through the work I've done with you, your programs, and healing audios, I have grown more in the last few months than I have in the last 65 years. For the first time I know I am loveable and worthy of happiness...this is HUGE! You are an incredible coach, minister, and source of healing whose stories and vital wisdom far exceeds any other teacher or coach that I have ever encountered. I will always be full of deep gratitude to you, and look forward to continuing my path alongside you."

"Anita's guidance has changed my life forever!"

"I believe connecting with Ani was inspired by divine intervention. What a special gift her coaching and ministering has brought to my life. What sets her apart from many others is that she has this wonderful divinely inspired coaching process that integrates mind, body, and spirit into wholeness with her ability to relate spiritual truths to everyday reality allowing everyone to discover their original intention.

Her coaching motto seems to be "no one left behind" as she reaches out to everyone in a way that holds a space until they can see and believe in their own magnificence.

She guided me on a journey to my innermost being where I could see, feel, know, and own a TRUTH that finally set me free to realize my own divinity. The TRUTH is that I am lovable. That God loves me . . . without condition. Her guidance has changed my life forever. It is with the greatest love, admiration, and a heart filled with thanks for the profound ways that she has guided me in releasing beliefs that were binding me. The real truth is that we are whole, complete and free. I have spent a life time searching for a life where I could be free to be me, and all of the time I was already free.

Beliefs can bind us in such painful ways until we are able to release and embrace the TRUTH. I urge you to give yourself a gift of a life time by knowing and embracing the beauty of this gifted and loving coach by joining "Awakening the Healer Within". It will bring meaning to your life and change it into a life of love and gratitude."

"It has been my honor to have crossed paths with such an intuitive healer as Anita Pathik Law.

*Through various modalities of healing work, she has assisted my personal healing process. She uses her knowledge of Native American ceremonies to tap into the spiritual healing energy of the earth and our ancestors. **Her one-on-one sessions include the healing art of guided meditations that are specifically designed for my individual healing, and always leave me with a deeper sense of peace and understanding of my own ability to heal and grow.** She also demonstrates a mature intellect through her one-on-one conversations and reflections. I have also been positively affected by Anita's hypnosis work, via her CDs.*

I have leaned on her work and understanding in times of need, because I trust in her ability to tune in to where I am to take the healing steps with me. Last, but not least, on occasion, Anita has facilitated my healing from a distance. Even over the phone, she is able to tap into areas of my body that need relaxing, and is effective in assisting me move through what needs healing and releasing."

"Ani, I have gained so much learning from you and have appreciated so much your sharing of your "gifts" of healing and teaching. You are a wonderful gift to us, making a difference "one life at a time". Many of my "shifts" have been subtle and some are more obvious. I love my new "high on life" feeling that I am experiencing most of the time. So much of the pain has been released from my body and I am using the tools you have given me, trusting my intuition to release the rest of the pain and discomfort and I know that time will come."

Much love, Carolyn, Oregon

"I completed two classes/workshops with Anita this year, and both were nothing short of transformational! I gained so much from the connection with groups seeking alignment with their destiny that when I found out Anita was holding a retreat in Maryland I realized I wanted to be part of that.

The retreat itself was absolutely lovely - we all felt welcomed, embraced even, into a beautiful healing group on the shores of Chesapeake Bay. We meditated, we talked, we laughed, we shared, we learned, we listened to beautiful music, and the whole experience was very magical.

I revisit that time often in my mind's eye, and **still feel as though I am drinking from some kind of deep spiritual well. It made me feel valued and complete. Let me add that my ability to meditate was greatly enhanced by the group support, that I had very interesting conversations with a range of people from whom I learned a great deal, and that the experience was at once greatly extending and grounding. I was deeply energized and inspired by what I learned, and am very grateful to have had the experience!"**

"For years I pored through numerous self help books, listened to untold numbers of audio tapes, attended workshops, seminars, constantly searching for directions and answers. What I got was information, messages, based on paths others had followed that didn't necessarily work for me. **The Power of Our Way took me in another direction. Searching inward, I began to find answers that came from my authentic self, my inner guidance, and I emerged with a clearer picture of my values and a better sense of the direction I wanted to follow."**

~Arlene Berlin, PR Consultant and Fundraiser

"Since reading the book, my life has begun a transformation. I started a new job the same day that I started the book and coaching. I've been through some rocky times with it, but by using the principles in **The Power of Our Way**, I have transformed the job into the perfect job for me right now. I'm learning things that I never would have exposed myself to before. I've also found the strength and courage to deal with some health issues that I had previously been content to live with. I'm seeing positive changes in that area. Also (and this is huge), I am taking the steps to finally get my finances in order after a lifetime of disarray in that area. I'm not 'there' yet, but I am certainly on my way. I feel more fully connected to all that is and seek to enhance that connection daily. **Your work has been a real catalyst for these changes in my life. I will be eternally grateful to you for sharing it with me."**

"One amazingly beautiful journey outside time and space is one way to describe private healing sessions with Ani but it is much more than that.

These journeys have catapulted me from teetering on the proverbial fence of indecision right into securing a venue and hosting workshops. Thank you, Ani, for your loving embrace that continues to hold me as I step into my magnificence!"

Love, Georgina, Canada

"The Power of Our Way" is a powerful book and program. It challenges your self-imposed limitations and inspires you to start to think bigger and dare to dream about your true potential. Reading through all the questions of the book and really put the answers on paper makes your own beliefs tangible and most importantly changeable."

“Ani, You have helped me explore my most authentic self and with it my place in the world.”

“I wholeheartedly endorse Anita Pathik-Law and her incredible Awakening The Healer Within Program as the most engaging and transformational course I have ever taken!

I'm not sure if I can accurately express my appreciation for all that Ani has provided in my life. She has helped me develop a mental, emotional, subconscious and conscious anchor, as well as a framework for future healing and discovery that inspires my soul.

It doesn't matter how I dissect the learning, every facet is a doorway to understanding and accepting one's self. Ani's unique gifts are many and quite simply - magnificent! Her level of consciousness, loving warmth, intellect and seasoned facilitation skills easily translate throughout our calls. As a powerful leader and shaman Ani has been able to light the Power of Our Way.

With ample opportunity to connect inwardly we open easily to outward creativity. Our group, comprised of people seeking personal and professional development, authenticity and healing inspiration, has come together as a healing collective of sorts. ***We support one another as we navigate the changes we desire and with Ani's guidance, we have become energy alchemists – better able to replenish our body, mind and soul.***

Each week for two plus hours, Ani demonstrates incredible healing expertise and holds the space for amazing, life altering transformation. By the end of each call we are revitalized and reenergized. In many ways Ani skillfully disables our non-serving beliefs and repetitive patterns often from painful pasts of constraint. We have truly come together in ways one could never have anticipated.

Ani is an exceptional mid-wife to the soul. With her gentle encouragement, I have actualized my goal to move forward in establishing new aspects of my business as a soul worker, emotional intuitive, energy and inner child healer. I am forever grateful to Ani on many levels and specifically for leading me toward my destiny... with courage I now follow my authentic bliss.

Ani, you have helped me explore my most authentic self and with it my place in the world. What else can I say other than to give my deepest and most heartfelt gratitude - thank you, thank you, thank you!"

"The Power of Our Way Medicine Wheel and Awakening the Healer Within Program offers a deeper encounter with Life and all of its possibilities. I have taken the course two times in a row and found that I could go even deeper the second time. We all have self-healing capabilities. As we work to heal ourselves, we spontaneously gift that healing to others. We make the world a better place to live just by doing our own work. The course provides education in the form of active listening as well as experiential opportunities.

Ani is a minister of love and safety which all feel when meeting her or even talking with her on the phone. She has a unique Christ Consciousness and Buddha Consciousness that exudes unconditional love and compassion. It is obvious that her spontaneous meditations come directly from the Divine.

The Power of Our Way Medicine Wheel, which was given to her from Spirit, is a tool beyond compare when it comes to healing physical, emotional and spiritual issues. I am so blessed to have found this course, The Wheel, and plan to continue to take courses from the Power of Our Way Community."

"Thanks Anita! The Money and Abundance healing audios are simply amazing! You are right, there is power in the silence, hence that is where everything comes from, from no thing ness. **Your meditations are amongst the best I have ever heard.** You transfer the energy of source into your voice and through these meditations. I am amazed. I have done lots of work and study and meditation to tap into source and your meditations have strengthened this gateway for me so thank you very much."

"Anita, I have been dealing with an illness for the past 18 months which has meant me having to give up working for now. There are days when the pain and financial pressures make it very difficult to stay in the now and accept there is purpose to all of this. However, **I can happily say that there have been many blessings along the way. One of them being you :) For the first day in months, after having listened to your meditations, I have actually had a day where the pain has been less severe.** There was also some financial stuff that had to be taken care of that I hadn't been looking forward to but I actually found a calmness come over me as I dealt with it all"

"Awakening the Healer Within" with Ani has been an amazing journey for me. It helped to heal wounds and hurts that were deeply hidden. It was done with a lot of love and compassion and guidance that Ani offered. This teleclass is an awesome way to discover your inner power that you have. During the journey you will have a chance to see that you can start your life all over, this time as a compassionate and forgiving person. You will meet other people who just like you would love to heal their lives. You will be amazed how much you have in common with them and how much you are connected to them. The healing is done slowly and gradually and you can feel it at the end. Ani will guide you into the land of love and joy. Highly recommended!"

"I can't say enough about Ani and her healing touch. There are really no words that I can use to describe the amazing energy she gives and how it has affected my life. She does her healing with passion, compassion and love. If only the whole world could see her beauty, strength and healing touch, it would surely be a better place.

As a teacher, and leader in our spiritual community, you create a safe, welcoming place for us all and within it, we are able to grow and shine!

"Awakening the Healer Within with Anita Pathik Law has been the most inspirational, healing, and FUN class I've ever taken. I have taken just about all of Ani's classes, and this one is my favorite! The group that came together for my class was divinely inspired! (As are all groups that come together.) I can truly say that I love every person I've had the opportunity to interact with. There is such power in witnessing the healing of another and experiencing your own version of healing at the same time. I would highly recommend it to anyone who knows they are a healer - regardless of what you're already doing as a healer. I'd also recommend it to those of you who think you might be a healer - and even to those who wish they were a healer but don't think they are! Ani is such a gifted healer, coach, teacher, guide, and person. Don't miss an opportunity to experience this class with her!"

"[Divinity Movie](#) does more than motivate, it challenges the soul. More than anything, we need to be able to trust ourselves and what we find within. We also need to feel connection and communion with others of like mind. Anita and Brent are offering that through the movie and the book. **I also have to say that Anita's voice on her CD's is so deeply soothing, to listen is to be nurtured."**

"I am on Day 4 of Anita's "The Power of Our Way..." program. Already in four days I have gotten more from this book than a year of self discipline and commitment completing "A Course in Miracles." I am "blown away!"

I truly believe that Anita Pathik Law is this generation's emerging "star" author and that she and Brent Law's work together will give the Human Potential Movement its biggest boost its ever experienced."

"I was wondering why every time I was looking for my purpose I could not find it. I kept having some sort of block in this area. After doing only one of the exercises in the Awakening to Purpose course I was able to laser focus my purpose.

I have read all of the popular books and have never found anything that remotely touches this course!

I would have easily paid \$1000 if I had known the results that I would get from *Awakening to Purpose*.

Anita has been an absolute Godsend to me. My life is permanently changed. I now have the courage to do what I know is right for me."
